

TAKE A RIDE IN THE COPD SHUTTLE!

You're invited to take this rare opportunity to visit the COPD Shuttle: Journey to the Center of the Lungs—a 20-passenger mobile simulator that takes you on a five-minute virtual adventure through the human lungs.

Kick-off the critical new **FREE COPD** screening program

Tuesday, November 15, 2011

10:30am

First Apostolic Faith Institutional Church

27 South Caroline Street
Baltimore, Maryland

Learn about the effects of smoking, biomass fuels and genetics have on lung tissue.

Chronic Obstructive Pulmonary Disease (COPD) is the third leading cause of death in the U.S. Visit the COPD Foundation's Shuttle to learn how you can help in the flight of this growing health care concern.

COPD: Almost Always Preventable, Almost Always Treatable, Someday Curable

This event is sponsored by the COPD Foundation,
